**W&B SERVICE OF DALLAS AND CARRIER TRANSICOLD SOUTH
NAMED CARRIER TRANSICOLD DEALERS OF THE YEAR**

ATHENS, Ga., March 27, 2006 – In a nod to outstanding dealer performance, Carrier Transicold named not one, but two dealers of the year for 2005: W&B Service of Dallas and Carrier Transicold South of Atlanta. The awards were presented at the annual Truck, Trailer and Rail dealer meeting held recently in Miami Beach.

“While not unheard of, the double award this year is no coincidence,” said Joe Porto, director of sales for Carrier Transicold.

Both W&B Service and Carrier Transicold South achieved perfect scores in Carrier’s Next Level performance program, which includes rigorous criteria that awards points for customer satisfaction and overall achievement.

“They were neck-and-neck in quantitative and qualitative areas,” Porto said. Both organizations performed at an extraordinary level, helping Carrier Transicold to reach record levels of sales across all product categories.”

“Winning dealer of the year means a ton to everybody in the organization,” said Bruce MacDonald, president of Carrier Transicold South, now in its fourth year in Atlanta and serving most of Georgia and eastern Tennessee. “It’s the result of having good people and letting them do their job.”

Carrier Transicold Dealer of the Year – 2

“In 55 years of business, we’ve won a lot of awards, but they’re always exciting to win – you never lose the feeling,” said John Chisolm, president and general manager of W&B Service in Dallas, a full-service dealership with an exceptionally strong presence in the Dallas marketplace.

Both Chisolm and MacDonald praised the teamwork within their companies. “It speaks to our team effort,” said Chisolm.

Carrier Transicold also recognized 30 other North and Latin America dealers for sales performance, significant investments in facilities and achievement of business objectives. The meeting brought together 90 dealerships – 74 from the U.S., 10 from Latin America and 6 from Canada – to celebrate success and learn about the next generation of product innovation.

Carrier Transicold provides industry-leading transport temperature-control and anti-idling solutions with a complete line of equipment for refrigerated trucks, trailers and containers, auxiliary power units for heavy-duty trucks and transport air conditioning systems for buses and recreational vehicles. Carrier Transicold is a business unit of Carrier Corp., which is headquartered in Farmington, Conn., and is the world’s largest provider of heating, air conditioning and refrigeration solutions with operations in 172 countries. It is a subsidiary of United Technologies Corp., a diversified company that provides a broad range of high technology products and services to the aerospace and building industries worldwide.
