

Universal Rear Vinyl Curtain

Carrier
TRANSICOLD
PERFORMANCE
PARTS

Features and Benefits

- Fuel Savings
 - Keeps air from escaping when door is open, resulting in faster recovery time and reduction in run hours of refrigeration unit
 - Can be moved up the trailer with a diminishing load to cool a smaller area and save you money
- Food Safety
 - Maintains the temperature of food products by keeping cold air in the trailer when the doors are open
 - Will protect dry compartment from extreme cold air in winter while rear door is open
- User Friendly
 - Easy to walk through, curtain can be strapped to side wall or removed from trailer during loading, unlike strip curtains which become wet & stiff
 - 2' x 3' clear window allows light to come through each side and allows driver to see through
- Light Weight
 - Curtain and track hardware weigh 48 lbs. and can be easily handled by one person
- USDA/FDA Approved
 - All materials are USDA/FDA approved. Chemicals used to clean out trailer will not damage curtain material
- Available at Carrier Transicold Dealers nationwide
