Ultimate Protection for Your Cargo and Equipment

▪ Adjustable Door Lock

- Provides maximum security against cargo theft
- Fits virtually all trailer and container swing doors
 - Adjustable in ½" locking increments (from 9½" to 15½" from center of lock bar to center of lock bar)
- Chrome-plated 10 gauge spring steel surrounds Abloy® padlock for maximum security and corrosion resistance

▪ King Pin Lock

- Prevents unauthorized hookups to dropped trailers
- One piece construction with convenient carrying handle prevents accidental locking
- Made of solid cast iron steel alloy, includes Abloy high security lock cylinder

▪ Air Cuff™ Lock

- Completely encases tractor air valves preventing the parking brake and trailer air supply from being released
- Fits most tractors
- Constructed of high impact resistant material, includes Abloy high security lock cylinder

- All locks are portable, no permanent installation required
- All lock cylinders and padlocks can be keyed alike, different or to a master system
