**CARRIER TRANSCICOLD SOUTH**

Your full-service factory-authorized  
Carrier Transicold dealer.

Carrier Transicold South.  
The largest reefer dealer in the Southeast.

The most responsive reefer support anywhere.

**Our mission is to serve you better.**

At CT South, our mission is simple. We want you to recognize us as the most capable, best-equipped provider of transport refrigeration and air-conditioning products and support in your territory.

That's why we concentrate on being the experts in reefers and air conditioning, our only business. In addition, we pride ourselves on providing world-class service. We recruit skilled technicians, train them to be experts, and reward their dedication to serving you.

To provide the best possible service, our technicians only focus on our core business. We don't expect them to fix brakes, bend sheet metal, or repair trucks.

And because of the multistate scale of our operation, we develop our own training programs, implement our own service processes, and carry an extensive inventory of equipment and parts. All to ensure that we accomplish our mission.

**Specialty Truck/Trailer Reefer Products.**

- Diesel-driven and electric Carrier trailer refrigeration systems.
- Self-powered diesel-driven Carrier truck refrigeration systems.
- Carrier truck engine-driven truck systems.
- StarTrak satellite-based Refrigerated Transport Control, providing full-authority reefer control for truck and trailer applications.
- Electric and diesel rental storage trailers.

**Specialty Bus Air-Conditioning Products.**

- Carrier transit bus air-conditioning systems.
- Carrier tour bus and coach air-conditioning systems.
- Carrier school and shuttle bus air-conditioning systems.

**Specialty Container Reefer Products.**

- Field-proven world-class Carrier container refrigeration systems, the industry standard for quality, reliability, and performance.

**Specialty Rail Reefer Products.**

- Rugged Carrier refrigeration systems specially built for the extreme rail environment.

**Auxiliary Power Units.**

- Auxiliary power systems for truck and tractor in-cab climate control.
- Dramatic fuel-saving alternative to engine-driven in-cab climate control.
- Environmentally responsive alternative to engine idling emissions.
- Main engine preheat and battery recharging.
- Federal weight exemption.
- 200 service locations.
- Start-stop operation.
- Financing available.

**Specialty Reefer Services.**

- 24-hour call-out service with no fee and a two-hour minimum charge.
- Clean, modern, professional facility with ample trailer parking.
- On-site fueling service.
- Mobile service available.
- Scheduled and Guaranteed Cost Maintenance Programs tailored to your needs and budget.
- Factory-trained, EPA-certified technicians, specialists in Carrier Transicold and Thermo King® reefer equipment.
- As a certified Carrier NEXT LEVEL™ Dealer, we provide extended hours in the peak season, reciprocal workmanship warranty with other Carrier dealers, standard repair times, and minimum call-out charges.

**Specialty Reefer Parts Services.**

- Complete line of genuine Carrier Performance Parts™.
- Replacement parts for Thermo King equipment.
- The Carrier Transicold Priority™ Gold Card offers you a 2% annual rebate on all Carrier parts purchases. It gives you instant credit at all Carrier Transicold Dealer locations across the U.S., Canada, and Mexico.
- The Carrier Transicold South facilities warehouse has over \$1 million in parts inventory.
- Most of our facilities feature a professional counter area and offer a customer lounge.
