

Carrier TRANSICOLD SOUTH

Your full-service factory-authorized Carrier Transicold dealer.

Performance Quality Satisfaction

Carrier Transicold South

The largest reefer dealer in the Southeast.

Our Mission Is to Serve You Better

At CT South, our mission is simple. We want you to recognize us as the most capable, best-equipped provider of transport refrigeration and air conditioning products and support in your area.

That's why we concentrate on being the experts in transport refrigeration and bus air conditioning. In addition, we pride ourselves on providing world-class service. We recruit skilled technicians, train them to be experts, and reward their dedication to serving you.

To provide the best possible service, our technicians only focus on our core business. We don't expect them to fix brakes, bend sheet metal, or repair trucks.

Because of the multi-state scale of our operation, we develop our own training programs, implement our own service processes, and carry an extensive inventory of equipment and parts. All to ensure that we accomplish our mission.

Specialty Truck/Trailer Reefer Products

- Diesel-driven and electric Carrier trailer refrigeration systems.
- Self-powered diesel-driven Carrier truck refrigeration systems.
- Carrier truck engine-driven truck systems.
- Cellular and satellite-based Refrigeration Transport Control, providing full-authority reefer control for truck and trailer applications.
- Electric and diesel rental storage trailers.

APX™
CONTROL SYSTEM

APX is High-Tech

As technology becomes more powerful, it can become more complex, at a time when your business needs it to be faster and easier to use.

Telematics

eSolutions™
Providing TRU IQ for Your Fleet
